To Whom It May Concern:

Re: Private Hydrant Flushing for _____

We, the owners of the above referenced property have requested that Southington Water Department flush our private fire hydrants as part of their flushing program.

This letter is to verify that we, the owners, understand the Southington Water Department will be held harmless and is not responsible for any damage the flushing operation may cause. This will include any damage the water discharged during the operation may cause to landscaping or personal property. We, the owners, also agree to repair any hydrants or valves found broken during the flushing at no cost to the Southington Water Department.
